

EBENEZER L

React.js | Node.js | Full Stack

ebenezerat2003@gmail.com | +91-9962127399 | Chennai, India

LinkedIn: [linkedin.com/in/ebenezer-livingston](https://www.linkedin.com/in/ebenezer-livingston) | Portfolio: ebenezer-portfolio-frontend.vercel.app

PROFESSIONAL SUMMARY

Software Developer with 1+ year of experience across the full stack — React.js, Node.js, Express.js, and SQL. Delivered production work spanning RESTful APIs, JWT/RBAC auth, Prisma ORM, ETL data migration, and Puppeteer-based PDF generation. Focused on clean architecture and code that's easy to maintain and extend.

TECHNICAL SKILLS

Backend: Node.js, Express.js, REST APIs, JWT, RBAC, Prisma ORM, SQL (MySQL)

Frontend: React.js, Next.js, Vite, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS

Data & Scripting: Python, Node.js ETL scripting, data migration, Puppeteer (PDF generation)

State Management: Redux Toolkit, Zustand, React Context API

UI & Visualization: AgGrid, Material-UI, Chart.js, ApexCharts, React Leaflet

Tools: Git, GitHub, PWA, Service Workers, Lighthouse

WORK EXPERIENCE

The Populous Empowerment Network (PEN) | Chennai, India

Jan 2025 – May 2026 (1 yr 5 mos)

Software Developer – Consultant

Nov 2025 – May 2026

- Designed and built secure RESTful APIs with JWT authentication and RBAC; architected SQL schemas via Prisma ORM for optimised query performance.
- Migrated 10,000+ records with zero downtime using automated Python/Node.js ETL scripts, including data cleaning and validation pipelines.
- Architected modular Node.js/TypeScript backend reducing feature development time by 35% and API calls by 30% via in memory Caching.
- Implemented Puppeteer-based server-side PDF generation supporting bilingual output (Tamil & English) for client-facing exports.

Frontend Developer – Intern

Jan 2025 – Nov 2025

- Built React.js and Next.js dashboards consuming backend REST APIs, achieving 35% faster load times via code splitting and lazy loading.
- Developed AgGrid-based data tables with server-side API integration for dynamic data manipulation and filtering.
- Created reusable TypeScript component libraries with Tailwind CSS, accelerating team development velocity by 40%.
- Developed geospatial dashboards with React Leaflet rendering 1,000+ real-time data points with smooth UX.

PROJECTS

Election Manifesto Dashboard | Vite, React.js, Node.js, Express.js, Prisma ORM, SQL, Puppeteer, AgGrid

Live Demo: app.supademo.com/demo/cmpscmubg2gftqmy7au5zz61u

- Built a full-stack manifesto tracking platform covering 2021 and 2024 Tamil Nadu election promises, categorised by completion status (Completed, In Progress, Not Yet Started, Awaiting Union Response).
- Designed RESTful backend with Node.js, Express.js, and Prisma ORM on SQL; implemented data migration via Python/Node.js scripting with cleaning and validation pipelines.
- Integrated AgGrid with server-side API for dynamic data manipulation, with multi-level filters across state, district, and budget allocation.

- Built Puppeteer-based bilingual PDF export (Tamil & English) and dynamic bar chart visualizations, enabling stakeholders to download filtered manifesto reports.

Hawkeye – Voter Data Analysis Platform | *Next.js, TypeScript, React Leaflet, Redux Toolkit, PWA*

Live Demo: app.supademo.com/embed/cmh854xie0sx46133dx9ppzr5

- Built a voter data analysis platform using React Leaflet as the primary interface, with live stat updates on zone, AC, and booth-level drill-down on each map interaction.
- Implemented color-coded booth markers (battleground, less difficult, win zone, strong zone) so analysts can instantly spot booths needing attention across a full constituency.
- Architected as a PWA with Next.js and Service Workers, enabling 100% offline access to previously loaded data for analysts in low-connectivity areas.
- Achieved 95+ Lighthouse scores and 40% faster page loads via SSR/SSG optimisation; cut state complexity by 60% using Redux Toolkit.

EDUCATION

B.Tech in Information Technology

2020 – 2024

Panimalar Engineering College, Chennai | CGPA: 8.68 / 10

CERTIFICATIONS

- TCS National Qualifier Test (NQT) – IT | Score: 73.16%
- Web Development Bootcamp – Microsoft Student Ambassador
- UI/UX Design – UXMINT
